Routledge Handbook of Politics and Technology

Edited by **Ulrich Hilpert**, Friedrich Schiller Universität, Jena, Germany

This handbook provides a comprehensive global survey of the politics of technology. Written by an outstanding line up of distinguished scholars in the field, the handbook covers all aspects of the relationship between politics and technology. Employing a comparative and interdisciplinary approach in order to analyse the interplay between government activities and the development of new technologies, this handbook will be an invaluable resource for all students, scholars and practitioners working in the politics of technology, public policy and policy analysis.
